

2009-2010 District 7 4-H Community Service Project

Pennies for the Pool

How can I help?

Anyone can save pennies! From your friends and family to local businesses, collecting pennies is a great way to get your entire community involved. We are challenging each 4-H member to collect one jug full of pennies by June of next year!

How will my pennies be used?

Your pennies, added to the thousands of other pennies collected across District 7, will be turned in for cash. All of the money received from the collection will be donated to the Brownwood 4-H Center to help replace their swimming pool. The county that collects the most money will receive a \$100 donation to their county program!! Help your county by donating today!

Where should I take my pennies?

All counties need to set a due date prior to June 21st for jugs of pennies to be brought in to the county office. Each county must turn in a check to the District Office on June 21st in the amount they collected from their county.
